

Taigal AN H/C

**Taigal AN H/C is a levelling agent for the dyeing polyacrylonitrile fibers
with cationic dyes)**

I.Properties:

- 1.Appearance : clear liquid
- 2.Ionic activity : cationic
- 3.pH value : slightly alkaline
- 4.Main component : special cationic surfactant
- 5.Solubility : easily solnble in cold water
- 6.Storage : good storability

II.Advantages:

1. Taigal AN H/C does not block dyesites therefore does not decrease dye exhaustion。
2. Taigal AN H/C shows excellent migration effects。
3. Taigal AN H/C makes no influence on the color shades of acrylic fiber。
4. Taigal AN H/C has high penetrating properties to improve levelling effect, it can used on cheese dyeing。
5. Taigal AN H/C is highly effective for repairing of unlevel goods。

III.Aplication:

1. When dyeing acrylic fiber with cationic dyes, the following additions are recommended:
2. Taigal AN conc New shows excellent migration effects。

Light shade	2.0% o.w.f. Taigal AN H/C
Medium shade	1.0~2.0% o.w.f. Taigal AN H/C
Deep shade	0.5~1.0% o.w.f. Taigal AN H/C

2. For repair on uneven dyeing

2.0%~4.0% o.w.f. Taigal AN H/C is necessary for 30mins~1hour at the boil。

The information and data in this bulletin are based on accurate laboratory researches and intended for your guidance. We cannot, however, accept any responsibility for the results obtained, in view of the numerous factors of applications are beyond our control. Our guarantee is limited to the unvarying quality of our products.
