## Taigal AN conc New

**Taigal AN conc New is a levelling agent for the dyeing polyacrylonitrile fibers  
(with cationic dyes)**

### I.Properties:

- 1.Appearance : clear liquid
- 2.Ionic activity : cationic
- 3.pH value : slightly alkaline
- 4.Main component : special cationic surfactant
- 5.Solubility : easily solnble in cold water
- 6.Storage : good storability

### II.Advantages:

1. Taigal AN conc New does not block dyesites therefore does not decrease dye exhaustion.
2. Taigal AN conc New shows excellent migration effects.
3. Taigal AN conc New makes no influence on the color shades of acrylic fiber.
4. Taigal AN conc New has high penetrating properties to improve levelling effect, it can used on cheese dyeing.
5. Taigal AN conc New is highly effective for repairing of unlevel goods.

### III.Aplication:

1. When dyeing acrylic fiber with cationic dyes, the following additions are recommended:

Light shade	2.0% o.w.f. Taigal AN conc New
Medium shade	1.0~2.0% o.w.f. Taigal AN conc New
Deep shade	0.5~1.0% o.w.f. Taigal AN conc New

2. For repair on uneven dyeing

2.0%~4.0% o.w.f. Taigal AN conc New is necessary for 30mins~1hour at the boil.

The information and data in this bulletin are based on accurate laboratory researches and intended for your guidance. We cannot, however, accept any responsibility for the results obtained, in view of the numerous factors of applications are beyond our control. Our guarantee is limited to the unvarying quality of our products.
